WRITING AT GREATER DEPTH

An opportunity for English Leads in our schools to:

- Develop a solid understanding of what 'greater depth' writing looks like.
- Share case studies and good practice from each of the schools.
- Arrange to visit another school to look at an alternative and effective approach to teaching writing.
- Share examples of effective practice with staff back at own school, with the aim to increase the number of pupils working at 'greater depth'.
- Continue to build a supportive and productive network for English Leads within our schools.

Please bring:

- One example of a 'greater depth' piece of writing from your own class.
- A brief bullet-point case study (template below) of effective approaches used with this child, both within your class and across the school.

Refreshments will be provided

Pupil Case Study – Greater Depth Writing

School:

Year group:

Brief background of pupil (additional needs/factors, data story):

-

Class/school approaches to writing:
